Four-year-old Jeydi lives in poverty in Nicaragua with her mother, Maria, and her siblings. Maria tries to make what little food she has last longer, so she sometimes doesn’t feed Jeydi until noon. Sometimes that meal is only rice or a bit of bread with black coffee.

What’s worse is that Jeydi has intestinal parasites, and she tells her mother she is in pain. But, Maria doesn’t have the money for treatment, and all she can do is pray and fast.

Your loving gift to Food For The Poor gives Jeydi, and children like her, the food, medicine and other necessities they so desperately need to survive.
